Session 1. **Associate Professor Neil Savage**
- Basic concepts in infection control including vectors of transmission
- The general health care setting versus the dental health care setting
- Community infectious diseases and the emergence of resistant bacteria
- Emerging concerns with tuberculosis
- Specific pathogens of concern in the head and neck area
- Managing infections in immune compromised and oncology patients
- The tangible benefits of practice accreditation
- Making the change to handcare and hand hygiene protocols

Session 2. **Professor Lakshman Samaranayake**
- The importance of a team approach for infection control
- Changing patient and staff attitudes to infection control – some perspectives from overseas
- Emerging challenges of viral influenza, avian flu, Ebola & SARS & other respiratory infections
- An update on bloodborne viral diseases and their importance in dentistry
- Current therapeutic approaches for managing viral hepatitis
- Disinfection and antisepsis in clinical dentistry
- Management of sharps injuries and other exposure incidents

**Professor Laurence Walsh** has been involved with education and research in infection control for more than 20 years, and has served as an auditor, inspector and consultant in the private and public sectors. Laurence has contributed significantly to the development of national guidelines, checklists and standards. He chaired the ADA Inc Infection Control Committee from 2008-2014, and was the editor and principal author of the 2012 and 2015 editions of the ADA Infection Control Guidelines and the 2015 ADA’s Audit Tool for Infection Control. He currently serves on several committees for ACSQHC and on Standards Australia committees HE-013 and HE-023. Professor Walsh has lectured widely on infection control at national and international levels.

**Associate Professor Neil Savage** is registered in the specialties of Oral Medicine and Oral Pathology. He is a member of both the ADA Inc and AHFRA Therapeutics committees and a contributing author to the Therapeutic Guidelines book “Oral and Dental”. His main commitment is in private specialist Oral Medicine practice. Professor Savage is a Consultant in Oral Medicine and Oral Pathology to the RBWH, conducting a weekly Outpatient’s clinic and participating in registrar training as well as undergraduate Dental and Medical students. He is actively involved in diagnostic histopathology reporting through Queensland Medical Laboratory and consults on difficult cases with a number of interstate pathology groups. He also continues teaching commitments at both post-graduate and under-graduate levels as a Reader in Oral Medicine and Oral Pathology at the University of Queensland, School of Dentistry. He has specific clinical and research interests in the management of soft tissue lesions, both conservative and surgical, the use of steroid medications and oral dysaesthesias.

**Professor Lakshman Samaranayake** is the Head, and the Professor of Oral Microbiology and Infection at the University of Queensland, School of Dentistry. He is also an Emeritus Professor at the University of Hong Kong and served as the Dean of the latter institution for a decade from 2004 to 2013. Graduating with a BDS from Sri Lanka, Professor Samaranayake earned his DDS degree by research at the University of Glasgow, and Fellowship of the Royal College of Pathologists, by examination. His current research interests are in oral microbiology (particularly biofilm biology), infection control, and dental education. Professor Samaranayake has authored more than 400 SCI publications cited in the literature over 14,800 times (h-index 61). For his research he has received many accolades including the Distinguished Scientist Award of IADR, and the King James IV Professorship of the Royal College of Surgeons of Edinburgh, UK. He has also served as a World Bank Consultant in Problem Based Learning, a Council Member of the FDI, and the Chairman of its Science Commission.

The Dental Update 2016, Prosthodontics Update 2016, Paedodontics Update 2016 and Infection Control Update 2016 and The Worn Dentition events are organised by the Queensland Dental Group™ ACN 139051362, ABN 32139051362. Participants may use these courses to meet CPD requirements as set by the Dental Board of Australia. CPD Verification has also been received from the New Zealand Dental Association (NZDA). For Australian and New Zealand dental practitioners, the maximum hours of scientific CPD credit attainable for attending Dental Update 2016 is 16 hours, for Prosthodontics Update 2016 is 7 hours, for Paedodontics Update 2016 is 7 hours, for Infection Control Update 2016 is 6 hours and for The Worn Dentition is 15 hours. The Queensland Dental Group™ guarantees these courses are compliant with Section 4 of the Dental Board of Australia guidelines on continuing professional development. NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD. NZDA CPD verification does not imply promotion or endorsement of the contents of any course. Participants need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice. Registration for these events includes morning refreshments, lunch & afternoon tea. The Early Bird registration rate is available for the Prosthodontics Update 2016 and Infection Control 2016 events for registrations received and paid in full by the 20th of April 2016. The Early Bird registration rate is available for the Dental Update 2016, Prosthodontics Update 2016 and The Worn Dentition event, for registrations received and paid for in full by the 10th of June 2016. Each participant registering for the Infection Control Update 2016 event at the standard or early bird rate may also register up to two dental team members at the accompanying team member rate of $330.00 per team member on the same registration form. All details in this brochure were accurate at the time of printing. The organisers reserve the right to make changes from time to time and will, if appropriate, make such information available on the website. No sponsorship has been sought for these events to allow all presenters to provide their own unbiased views, opinions and preferences. Registration for an event does not include insurance of any kind and it is strongly recommended that participants arrange their own travel and other insurances. A full list of terms and conditions and the privacy policy may be viewed through the website link at www.qldentalg.com.au or requested in writing.

Cancellation Policy: Any registered participant wishing to cancel their registration must do so in writing via email, fax or mail. Any registered participant whose cancellation is received in writing at least twenty (20) business days prior to a course for which the participant is registered for, will receive a refund of 75% of the registration fee. Any registered participant who cancels his or her registration within twenty (20) business days prior to a course for which the participant is registered for, will not receive a refund of the registration fee. The organiser will have no further responsibilities nor be liable for any loss of income or cancellation fees of travel arrangements or accommodation or other monies expended by the participant.
